PROFESSIONAL SUMMARY

IT Business Analyst, Project Manager and Data Improvement Analyst with 8+ years of experience across project delivery, business analysis, process improvement and data analysis. Turns business needs into clear requirements, maps and improves processes, and uses SQL, Excel and Power BI to produce insights that support decisions. Has worked with cross-functional and remote teams across Nigeria, the UK and the US, and has mentored 500+ technology professionals and developers.

CORE COMPETENCIES

Business Analysis	Requirements gathering and elicitation, user stories and acceptance criteria, as-is / to-be process mapping, gap and root cause analysis, business case analysis, UAT support, stakeholder management
Data and BI	SQL (PostgreSQL), Power BI dashboards, Microsoft Excel, data cleaning and transformation, KPI and trend analysis, operational reporting, data visualisation
Tools and Methods	Jira, Confluence, Trello, Azure DevOps, Draw.io, Microsoft Office, Google Workspace, Slack, Zoom; Agile, Scrum, Waterfall, SDLC, business process management
Other	Technical training and mentorship, workshop facilitation, documentation, HTML / CSS / JavaScript, website and graphic design

PROFESSIONAL EXPERIENCE

Technical Data Associate / Business Analyst

May 2022 – Present

10Alytics Data & Strategy Company | Canada / Remote

- Interpret operational data to evaluate trends, build automated reports and support management decision-making.
- Clean and process data with Excel and SQL, build Power BI visualisations in response to business challenges, and recommend solutions.
- Analyse participant and operational issues to find root causes, and document process gaps in booking, attendance, session access and issue resolution.
- Collaborate with data scientists, developers and designers so that technology solutions fit business processes.
- Coordinate the Business Analysis training programme and facilitate brainstorming sessions.
- Mentored and supported 500+ technology professionals and developers across learning programmes.

Project Manager

2020 – 2022

Imperial EduTech | Nigeria / UK

- Planned and coordinated project activities, timelines, deliverables and stakeholder responsibilities for technology-enabled education projects.
- Monitored progress, risks, issues and dependencies, and translated business needs into actionable tasks and delivery plans.
- Improved project visibility and collaboration between business, operational and technical stakeholders.

Project Manager / IT Strategic Analyst

2018 – 2020

Essential Cares International (in partnership with the Lagos State Government) | Lagos, Nigeria

- Coordinated skills-acquisition programmes and related events across multiple stakeholders, tracking deliverables, timelines and responsibilities.
- Reviewed operational processes to improve event planning and execution, and provided IT and strategic analysis to support operational improvements.

Science Tutor

Apr 2016 – Jul 2019

Davisland International School | Nigeria

- Planned and delivered mathematics and chemistry lessons, developed curriculum and instructional materials, and assessed student performance.

SELECTED PROJECTS

- **Sales Performance and Decision Support Analysis** – cleaned and queried sales data in SQL, built KPIs and Power BI dashboards, and turned findings into recommendations.
- **LMS Process and Participant Journey Tracker** – structured tracking and KPI reporting for participant status, attendance, engagement and follow-up.
- **Business Process Improvement and Workflow Optimisation** – documented a current-state process, identified bottlenecks, and designed a future-state workflow with clear ownership.
- **Event Tracking and Customer Experience Website** – gathered requirements, mapped the customer journey, and built a feedback-enabled event platform in HTML, CSS and JavaScript.
